BYLAW NO. 1473

“A bylaw to authorize an automated vote counting system and procedure.”

WHEREAS under the *Local Government Act*, Council may, by bylaw, provide for the use of automated voting machines, voting recorders or other devices for voting in an election;

AND WHEREAS Council wishes to establish voting procedures and requirements under that authority;

NOW THEREFORE, the Council of the District of Kent, in open meeting assembled enacts as follows:

1. CITATION

1.1 This Bylaw may be cited for all purposes as “Automated Vote Counting System Authorization and Procedure Bylaw No. 1473, 2011”.

2. DEFINITIONS

2.1 In this Bylaw the following terms have the following meanings:

Acceptable mark means a completed arrow which the **vote counting unit** is able to identify, which has been made by an elector in the space provided on the **ballot** opposite the name of any candidate or opposite either ‘yes’ or ‘no’ on any other voting question.

Automated vote counting system means a system that counts and records votes and processes and stores election results which comprises:

(a) a number of **ballot scan vote counting units**, each of which rests on a two compartment **ballot** box, one compartment of which is for:

(i) voted **ballots**; and

(ii) returned **ballots** which have been reinserted using the **ballot** override procedure;

and the other compartment is for the temporary storage of voted **ballots** during such time as the **vote counting unit** is not functioning; and

(b) a number of **storage ballot compartments** into which voted **ballots** are deposited where a **vote counting unit** is not functioning or being used which will therefore be counted after the close of voting on general voting day.

Ballot means a single ballot card designed for use in an **automated vote counting system**, which shows:

- (a) the names of all of the candidates for each of the offices to be filled; and
- (b) all of the choices of the bylaws or other matters on which the opinion or assent of the electors is sought.

Ballot return override procedure means the use, by an election official, of a device on a **vote counting unit**, which causes the unit to accept a **returned ballot**.

Election headquarters means the District of Kent Municipal Hall located at 7170 Cheam Avenue, Agassiz, B.C.

Memory pack means a computer software cartridge which is inserted into the **vote counting unit** and into which is pre-programmed the names of all the candidates for each of the offices to be filled, and the alternatives of 'yes' or 'no' for each question on the **ballot**, and which records and retains information on the number of acceptable marks made for each.

Storage ballot compartment means a **ballot** box, for use in the election, where a **vote counting unit** is not being used at the time of voting.

Results tape means the printed record generated from a **vote counting unit** at the close of voting on general voting day, which shows the number of votes for each candidate for each of the offices to be filled, and the number of votes for and against each bylaw or other matter on which the assent of the electors is sought.

Returned ballot means a voted **ballot** which was inserted into the **vote counting unit**, but which was not accepted and which was returned to the elector with an explanation of the **ballot** marking error which caused the **ballot** not to be accepted.

Secrecy sleeve means an open-ended folder or envelope used to cover **ballots** to conceal the choices made by each elector.

Storage ballot compartment means a designed compartment in the ballot box under each **vote counting unit** into which voted **ballots** are temporarily deposited in the event that the unit ceases to function.

Vote counting unit means the device into which voted **ballots** are inserted and which scans each **ballot** and records the number of votes for each candidate and for and against each other voting question.

3. USE OF VOTING MACHINES

- 3.1 Council hereby provides for the use of an **automated vote counting system** for the conduct of elections and other voting that may, from time to time, be required.

4. AUTOMATED VOTING PROCEDURES

- 4.1 An election official for each voting place shall offer, and if requested, ensure that a demonstration of how to vote using a **vote counting** unit is provided to an elector, as soon as such elector enters the voting place and before a **ballot** is issued.
- 4.2 Upon completion of the voting demonstration, if any, the elector shall proceed as instructed, to the election official responsible for issuing **ballots**, who, upon fulfilment of the requirements of the *Local Government Act*, shall then provide a **ballot** to the elector, a **secrecy sleeve** if requested by the elector, the ballot marking instrument, and any further instructions the elector requests.
- 4.3 Upon receiving a **ballot** the elector shall immediately proceed to a voting compartment to vote.
- 4.4 The elector may vote only by making an **acceptable mark** on the **ballot**:
 - (a) beside the name of each candidate of choice, up to the maximum number of candidates to be elected for each of the offices to be filled; and
 - (b) beside either 'yes' or 'no' in the case of each bylaw or other matter on which the assent or opinion of the electors is sought.
- 4.5 Once the elector has finished marking the **ballot**, the elector must either place the **ballot** into the **secrecy sleeve**, if one has been requested, or turn the ballot upside down and proceed to the **vote counting unit**, and under the supervision of the election official in attendance, insert the **ballot** directly from the **secrecy sleeve**, if applicable, into the **vote counting unit** without the **acceptable marks** on the **ballot** being exposed.
- 4.6 If, before inserting the **ballot** into the **vote counting unit**, an elector determines that a mistake has been made when marking the **ballot**, or if the **ballot** is returned by the **vote counting unit**, the elector may return to the voting compartment to correct the ballot or request a replacement **ballot** by informing the election official in attendance.
- 4.7 Upon being informed of the replacement **ballot** request, the election official shall issue a replacement **ballot** to the elector and mark the **returned ballot** "spoiled" and shall retain all such spoiled **ballots** separately from all other **ballots**, and they shall not be counted in the election.
- 4.8 If the elector declines the opportunity to obtain a replacement **ballot** and has not damaged the **ballot** to the extent that it cannot be reinserted into the **vote counting unit**, the election official shall, using the **ballot return override procedure**, reinsert the **returned ballot** into the **vote counting unit** to count any acceptable marks which have been made correctly.
- 4.9 Any **ballot** counted by the **vote counting unit** is valid and any **acceptable marks** contained on such **ballots** will be counted in the election, subject to any determination made under a judicial recount.

- 4.10 Once the **ballot** has been inserted into the **vote counting unit** and the unit indicates that the **ballot** has been accepted, the elector must immediately leave the voting place.
- 4.11 During any period that a **vote counting unit** is not functioning, the election official supervising the unit shall insert all **ballots** delivered by the electors during this time, into the **storage ballot compartment**, on the understanding that if the **vote counting unit**:
- (a) becomes operational, or
 - (b) is replaced with another **vote counting unit**,
- the **ballots** in the **storage ballot compartment** shall, as soon as reasonably possible, be removed by an election official and, under the supervision of the Presiding Election Official, shall be inserted into the **vote counting unit** to be counted.
- 4.12 Any ballots which were temporarily stored in the **storage ballot compartment** during a period when the **vote counting unit** was not functioning, which are returned by the **vote counting unit** when being counted shall, through the use of the **ballot return override procedure** and under the supervision of the Presiding Election Official, be inserted into the **vote counting unit** to ensure that any **acceptable marks** are counted.
- 4.13 A sample **ballot** that may be used in an **automated vote counting system** is attached as Schedule "A" to this Bylaw.
